## Features and Benefits

- Wide 46cm path
- Long Cable
- Simple access to blockages
- Extra-hard brush to remove the dirt

- New, improved Nilco uprights, with several performance enhancing modifications
- All Nilco uprights are for commercial use in such places as schools and office.
- 2 year motor warranty
- Its unique quick release base plate design for changing the drive belt or clearing blockages means that you will never need a bent coat hanger, a screwdriver or any other tools – a real timesaver
- The microfilters are 99.9% efficient @0.3 microns. This means that even the smallest particles of dust are kept inside the cleaner
- Wide 46 cm cleaning path
- On board tool storage
- Height adjustment for different carpet pile
- Overload protection on suction motor
- Electronic overload protection on brush motor
- Blockage indicator light

Combis lay down flat  
for cleaning under furniture

- Quick release 12.5 metre cable
- Machine can lay down flat
- Adjustment for brush wear
- Separate motor to power the roller brush
- Extra hard roller brush for improved performance on hard floors and tight carpet pile
- The advantage of using a motorised brush such as we have on all our Combi uprights is to:-
  - Maximise the dirt pick-up
  - Reduce the time spent cleaning Reduce labour costs

## Included Accessories

- Upholstery nozzle
- Crevice nozzle
- Suction hose with air control
- Extension tube
- Spare drive belt
- 5 paper bags

## Optional Accessories

- Furniture brush
- HEPA filter

We inspire,  
we challenge,  
we care

## Common accessories for Nilco Combi vacuum cleaners
