Working radius (metres):	..... 12
Wet pick-up capacity (litres):	..... 65
Water lift (mm):	.....2200
Weight (kg):	.....25
Capacity (litres):	.....90
Airflow (litres per second):	..... 86
Construction:	..... Polypropylene/Polyethylene

## Features and Benefits

- The automatic pump discharges the tank at the same time as it's being filled! — there's no need to stop and empty the tank while it's working.
- Ideal for clearing up flood waters as the Wetmaster 652 Sub can get into small areas, pick-up and pump out in one operation.
- 65 litre water capacity (90 litres gross)
- Two independently switched powerful 1100 watt long life cold motors
- Independently switched discharge pump
- Internal mesh filter to protect motors
- Virtually indestructible polyethylene tank
- This machine will pick up virtually anything, not just flood waters (farmers love it!)
- Heavy duty wet use vacuum cleaner built for industrial use.

## Included Accessories

40mm kit including:

- Two extension tubes
- Suction hose
- Curved hand grip tube
- 40cm squeegee floor tool

## Optional Accessories

- Fixed floor squeegee (60cms)
- Discharge hose
